

POWER SMART

A unique eco-system based
on smart contracts

The most profitable matrix
marketing plan

DEX PLATFORM

Power Smart is a decentralized platform. Smart contracts ensure the interaction of users in the system. All final transactions are executed and appeared in blockchain.

QDT token (Qchain) is used as the main currency for work.

SMART CONTRACT

Smart contracts or automatically executed protocols – this is digital protocols for transmitting information that use mathematical algorithms for automatically execute- transaction, after completed specified conditions and full controlled all process.

Data encryption ensures the anonymity the parties of agreement.

ADVANTAGES OF THIS SYSTEM

- INDEPENDENCE
- SAFETY
- SECURITY
- ACCURACY

QCHAIN

QCHAIN is a next generation eco-system that has the lowest transaction fees of all blockchain developments on the market, and at the sites of strategic partners.

Currently, the processing speed of financial data is at least **100,000 transactions per second.**

TOKEN QCHAIN (QDT)

QDT are tokens expressing the property right to intellectual property (IP - intellectual property) of the QCHAIN program code.

Total amount emitted

2,718,281,828 QDT

Q-MATRIX

Matrix marketing plan, thought out to the smallest details:
100% distribution of funds in the system. Fast site closures and
rewards. The repetition feature will provide you with consistent,
multiple income.

Q-MATRIX WORKING PRINCIPLE

Matrix marketing has 6 sites which are divided into 3 phases.

Every stage, culminating in a reward, transition and the creation of additional place in the system, called Repetition , which provides constant, repeatable profits.

Q-MATRIX LINEAR REWARDS

Instant income from linear rewards +20%.

One of the main benefits of Power Smart marketing.

Together with your partners, you get team income from the depth of the structure. When you activate a new member in your structure, linear bonuses are distributed 7 lines upwards.
